The Committee will be appointed in accordance with current regulations on incompatibility and conflict of interest.

## Art.7

### Duties of the Evaluation Committee

The Evaluation Committee, after each member has declared the absence of incompatibility and the absence of conflicts of interest among the committee members, establishes criteria for evaluating the qualifications, curriculum vitae, and scientific output of the candidates, including doctoral theses, according to internationally recognized criteria and parameters, as defined by Ministerial Decree No. 243 of 25 May 2011.

The adopted criteria are published on the School's website.

Following a formal statement confirming that no grounds for incompatibility exist and that no conflicts of interest are present between the Committee members and the candidates, the Committee conducts a preliminary review and issues a detailed, evidence-based assessment of each candidate's curriculum vitae and scholarly work. All candidates will be admitted to the interview, if the total number of candidates is equal to or less than six; otherwise, according to the results of the preliminary assessment, only the most qualified candidates will be admitted to the interview, from 10 to 20% of the total and, in any case, no fewer than six.

No written or oral examination is required, with the exception of an oral test to prove an adequate knowledge of the English language, in line with the School's international profile. The oral test will take place during the discussion on

qualifications and publications.

The meetings of the Evaluation Committee will be held online, using IT devices, provided that the type of telematic tool is specified in the reports. The Committee may meet via *Zoom* or using other electronic tools which can ensure the actual participation of all the members, the simultaneity of decisions, the immediate possibility to access the files, participate in the discussions, exchange documents and approve reports.

The acts of the Evaluation Committee consist of the reports of meetings, with attached reasoned analytical judgments on the qualifications, curriculum vitae, and scientific output of the candidates, and a summary report of the work carried out. The Committee must conclude its work within three months from the date of issuance of the Director's appointment decree, unless extended for justified reasons.

At the end of the procedure, the Committee identifies the most qualified candidate for the position.

## Art.8

Candidates admitted to the interview shall be summoned by means of a public notice, published on SISSA's website at

<https://www.sissa.it/recruitment?search=&status=All&area=All&posizione=3404>

with at least a 15-day notice.

The same notice states the interviews' schedule and modes.

To all intents and purposes, the publication of this notice is equivalent to an official notification. No private notifications to candidates are envisioned.

Any changes or additions to the schedule will be communicated to the candidates through publication on the dedicated SISSA website and via email to the address provided by the candidate at the time of application.

Failure to attend the interview shall be considered as an explicit and final withdrawal from the selection process.

The interview may be held on SISSA premises, via Bonomea 265 - 34136 Trieste, or online, via audio/video connection between commissioners and candidates, through *Zoom* platform or other remote electronic means that can guarantee an effective participation and interaction between commissioners and candidate, so as to ensure clear mutual understanding and adequate recognition of the identity of the candidates.

If candidates intend to participate in the public discussion remotely, they must expressly request this in their application.

Therefore, candidates admitted to an online interview have to be equipped with a webcam – which is mandatory for identification purposes – a microphone, speakers and/or headphones. At the beginning of the video interview, candidates must exhibit the same identification document sent with the application.

Remote interviews will take place on the same day as the interviews for candidates present in person, according to the schedule communicated by the Committee and posted on the School's website.

## Art.9

### Approval of acts

The Director verifies the regularity of the acts within thirty days from the submission of the documents by the Committee. If the verification has a positive outcome, the Director approves the Committee acts through a decree. If faults are identified, the Director sends the acts back to the Committee and sets a deadline for their regularization.

The Director's decree of approval is published on SISSA's website.

To all intents and purposes, the aforementioned publication is equivalent to notification. No further notice is envisioned.

The call of the researcher must be approved by the School Council in its plenary format (full and associate professors) by an absolute majority of the votes. It is subsequently proposed to the Board of Directors, which decrees on the call of the winner of the selection procedure.

In any case, the contract may not have a duration of less than one year.

At the time of signing the full-time fixed-term employment contract, the Administration shall invite the researcher to submit within 30 days the documentation required by law.

A researcher who has permanently resided abroad, has carried out documented research or teaching activities abroad for at least two continuous years at public or private research centers or universities, and moves his/her tax residence to Italy within three months from the start of the activity may benefit from the preferential tax scheme, without prejudice to further legislative amendments.

The research and teaching activities carried out by the researcher shall comply

with the contract, with the rules and codes of the School, and with the programming of the School's governing bodies.

For all matters that are not expressly covered in this notice, reference shall be made to the norms of Book V of the Italian Civil Code and current legislation on employment, with particular reference to Legislative Decree No. 165 of 30 March 2001 "General rules on the organization of employment by public authorities".

Given their full-time contract with the School, researchers are subject to the provisions of Art. 32, paragraphs 1, 2, 3 and 5, and to Art. 33 and 34, paragraph 1, of Presidential Decree No. 382 of 11 July 1980.

With regard to extraordinary leave and sick leave, the provisions of Articles 37, 40 and 68 of Presidential Decree No. 3/1957 apply to the tenure track researcher.

For all disciplinary issues, Art. 10 of Law 240/2010 shall apply.

The assessment of the researcher, who holds a contract ruled by art. 24, of Law No. 240/2010, is defined by SISSA Regulation on the enrollment of full and assistant professors (*professori universitari di I e II fascia*), enacted with modifications by Directorial Decree no. 1114 dated 21.12.2023, with the purpose of employment as associate professor with reference to art.24, paragraph 5 of Law No. 240/2010.

## Art.11

### Ban on concurrent appointments - Incompatibility

Pursuant to Law 240/2010, Art. 24, par. 3, the awarding of a fixed-term tenure track research position is incompatible with any other employment relationship with public or private entities, with research contracts at other universities or public research institutions, with doctoral scholarships, and in general with any scholarship awarded by national or foreign institutions for any reason, except in cases where the scholarship is intended to promote international mobility for research purposes.

## Art.12

### Termination of Employment

Termination of employment occurs upon expiry of the contract or withdrawal of one of the parties.

During the first two months, each party may terminate the contract at any time without prior notice and without penalties involving the recovery or the failure to pay the salary for the period of notice not given. The contract ends when the other party receives the notice of termination. Termination by the School must be duly motivated. After the above-mentioned period of time, in case of resignation the researcher must give at least a 30-day notice, by sending a written communication to the School's Director. Failure to do so shall result in a penalty involving the recovery or the failure to pay the salary for the period of notice not given.

In accordance with Art. 2119 of the Italian Civil Code, each of the parties may terminate the contract should an event occur which does not allow the continuation

of the contract, even on a temporary basis. In addition, the Administration may withdraw from the contract for just and proven cause or justified reason.
